PROJECTS

Portfolio Website

- A website I built using HTML, CSS, and Bootstrap that showcases my skills and interests.

Hermes (Hackathon Project)

- Collaborated with a team to build a website based on helping users decide, customize, and deliver healthy meals.
- Designed meal customization and ordering features for easy visualization and usage.

WORK EXPERIENCE

Edward R. Murrow High School

Advanced Placement Computer Science Tutor

Brooklyn, NY

October 2019 – May 2020

- Helped students prepare for the Advanced Placement Computer Science A exam by reviewing exam questions and material.
- Provided insight to students about studying Computer Science at university.
- Reviewed student projects and helped fix errors in the code.

HRA Public Assistance

Summer Intern

New York, NY

July 2019 - August 2019

- Assisted the internal efficiency management team in both the backend and frontend.
- Largely worked on improving the rate of operations connecting frontend and backend technologies.
